Facility Information

Facility name: _____

Facility address: _____

Contact person name: _____ phone: _____

Contact person email: _____

System being treated: _____

Type of system: (circle) Boiler loop Chiller Loop Waste Water Process Water

Location of the system: (circle) outdoor indoor

Who maintains the cooling tower: (circle) Internal staff Hired company

Who sets the blow down: (circle) Internal staff Hired company

Age of the system: _____ years

Water capacity of the system and all pipes: _____ gallons

Inflow water temperature: _____ Outflow water temperature: _____

Annual water usage: _____

Source of information: _____

Number of months in operation: _____ months

Corrosion measurement: (circle) Coupons Probe Not measured

Last measurement _____

Source of water for cooling tower: (circle) Well City (treated) Lake or river (directly) Grey water

Blowdown setting: TDS _____

or Conductivity _____

or other (specify) _____

Providing
naturally pure,
healthier water.

Chemicals used: List product brand names (common chemicals are biocides, corrosion inhibitor, Scale inhibitor, pH control):

pH _____

Biocide oxidizing CL BR other _____ Current concentration _____

Non oxidizing biocide type _____ Current concentration _____

Dispersant type _____ Dose _____

Anti Corrosion type _____ Dose _____

Non chemical water treatment: Yes No type _____

Water costs: _____ water/1000 gallons _____ Sewer/1000 gallons _____

Any effluent requirements? _____

Maintenance costs: Cleaning _____ Scale removal _____ Repair _____

Water Chemistry: Makeup water System water

pH _____

Total alkalinity _____

Total hardness _____

Calcium hardness _____

Iron _____

Silica _____

Chloride _____

Turbidity _____

Conductivity _____

ATP/dip slide _____

Providing
naturally pure,
healthier water.
