

What do Pool and Spa Owners Say?

“Water is So Smooth”

Mary Ann and Brian Nystrom

“We just closed our pool after our fourth wonderful summer of using your PoolNaturally® system. We love it and we also use SpaNaturally® (system) in both of our hot tubs. This summer one of our grandkids was swimming and said to me, “Mimi, the water in your pool is SO smooth!!” I swim laps for thirty minutes every day and I really appreciate not having my hair and swimsuit destroyed by chlorine.”

“Crystal Clear”

Eric Haugen & Sheri Ahl

“Water clarity is crystal clear year-round. There's much less maintenance time -- and more time to enjoy the spa. Significant chemical reduction. pH balances itself! “Eric’s wife had the last word: “It’s fabulous!”

“No Smell”

Pam Pittman

“That awful smell of chlorine and other chemicals in the rest of the house” persisted as long as the spa was in use. “It works!” exclaims the happy spa user. Since I started using SpaNaturally® (system), I had zero issues with it and my water is clear, pH is easy to balance, there are no sudsing issues and my maintenance time is a lot less than before, plus the water feels so silky and soothing.” “There no longer is a strong chemical smell in the house,” she sighs happily, “let alone in the spa area.” At last, spa contentment delivered and all expectations met.

Arlene Hemingway

“SpaNaturally® is working well, the water now feels more natural. There’s no smell of chlorine.”

“Less Maintenance”

Rick Grinham

Significantly less chemical use. Disappearance of the foaminess. Clearer water that is “soft to the touch.” Less maintenance time required. Less corrosion stress on the spa’s mechanical parts and liners. “A more enjoyable experience every time we use it.” “I’ve converted a lot of friends to it!” he exclaims. “And they like it for all the right reasons, too, especially the way the water feels and looks. It’s just so much more sparkling, and it feels like a safer and healthier environment. It’s just so much more comfortable all the way around with the moss.”

How to Get Great Results?

Spa Naturally® system

Step 1: Flush

Step 2: Fill

Step 3: Balance

Step 4: SpaMoss® Pack

1 Pack per Month For up to 450 Gallons/ 1.70 m³

2 Packs per Month For up to 900 Gallons/ 3.41 m³

Pool Naturally system

Step 1: Filter/Media check

Step 2: Fill/Top off – spring open

Step 3: Balance

Step 4: PoolMoss® pack

Step 5: WinterMoss™ - fall close

 PoolMoss® For Your PoolStart™ Chamber	1 Pack of PoolMoss® Per Month	2 Packs of PoolMoss® Per Month
	Up to 75.7 m ³ Up to 20,000 Gallons	Up to 151.4 m ³ Up to 40,000 Gallons
